Round Head Drive Screw Nails	34
Spring Head Roofing Nails	34
Dowty Type Washers (Spat Washers)	34

Fixings & Fasteners Guide

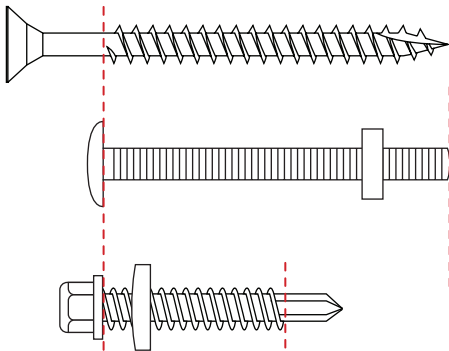

Gauge / Diameter

The gauge of the screw is determined by the size of the outside thread diameter.

Gauge	Metric Diameter (mm) approx.	Pilot Hole Size (mm)	Masonry Rawl Plug	Hole Size for Rawl Plug (mm)
3	2.5	1	Yellow	5
4	3	1.5	Yellow	5
6	3.5	2	Red	6
8	4	2.5	Red (or Brown)	6 (or 7)
10	5	3	Brown	7
12	5.5	3.5	Brown	7
14	6.5	4	Blue	10

Thread Length

Metric (mm)	Imperial (Inch)
3.17 (3.0)	1/8"
7.94 (8.0)	5/16"
9.52 (10.0)	3/8"
12.70 (12.0)	1/2"
19.05 (19.0)	3/4"
25.40 (25.0)	1"
31.75 (32.0)	1 1/4"
38.10 (38.0)	1 1/2"
45.45 (45.0)	1 3/4"
50.80 (50.0)	2"
57.15 (57.0)	2 1/4"
63.50 (63.0)	2 1/2"
69.85 (70.0)	2 3/4"
76.20 (75.0)	3"
101.60 (100.0)	4"
127.00 (125.0)	5"
152.40 (150.0)	6"
177.80 (175.0)	7"
203.20 (200.0)	8"
228.60 (230.0)	9"
254.00 (250.0)	10"

Recess Style

POZI

Standard recess for woodscrews, chipboard screws etc.

TORX

High performance recess.

THE LAUNCH OF PERRY FIXINGS

A. Perry, the UK's leading supplier of architectural and agricultural hardware, is proud to announce the launch of their new range of fixings and fasteners – 'Perry Fixings'. The company has worked in close collaboration with key customers to design this new comprehensive range of fasteners complete in fully retail friendly and environmentally friendly packaging.

The Perry Fixings range has been designed to meet the needs of merchant customers, who require heavy-duty fasteners that can withstand the toughest conditions. The range includes hundreds of new items, such as Timber fixings, Roofing Bolts and Screws, Engineering Fasteners, Masonry Fixings, and re-packaged Nails. All products come with ultra-clear product labels designed to be as user-friendly as possible.

In addition to providing a comprehensive range of fixings and fasteners, A. Perry is committed to sustainable practices, and so have developed this new range upkeeping with this the environment at the forefront, replacing plastic bags with hangable cardboard boxes and have produced plastic tubs using fully recyclable materials.

Commenting on the launch of the Perry Fixings range, A. Perry's Marketing Director, Steve Perry, said, "We are delighted to be launching this exciting new range of fixings and fasteners. Our close collaboration with key customers in our targeted sector has allowed us to design a range that meets the unique needs of this market. We are also proud to be making a commitment to sustainability with our Eco-friendly packaging."

TENZ from Perry Wood Screws

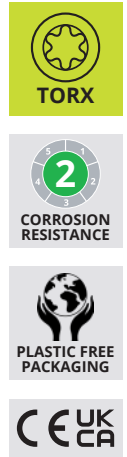

TENZ® from Perry High Performance Wood Screws - Yellow Passivated

TENZ® Stairs Thread Technology works by displacing the wood rather than cutting, tearing or milling it. This significantly reduces friction, reducing both the physical effort required by you and the energy input from the drill. Because the wood is displaced and not milled or cut, it closes in on the screw giving a firmer bond. This means you have a stronger join with less effort - No other screw can do this!

Stainless Steel finished screws offer several benefits, including:

Corrosion Resistance

Stainless Steel screws are highly resistant to corrosion, which makes them ideal for use in environments that are prone to moisture or other harsh conditions.

Strength

Stainless Steel is a strong material, which makes it ideal for use in applications where the screws will be subjected to high stress or tension.

Aesthetic Appeal

Stainless Steel finished screws have a sleek, modern look that can enhance the appearance of a project or product.

Durability

Stainless Steel screws are highly durable and can withstand exposure to extreme temperatures, chemicals, and other harsh conditions.

Non-Magnetic Properties

Stainless Steel screws are non-magnetic, which makes them ideal for use in applications where magnetic interference can be a problem.

Easy Maintenance

Stainless Steel finished screws require little maintenance, making them a low-maintenance option for many applications.

Wall Plugs

A standard wall plug suitable for concrete and masonry. Ideal for use on medium and lightweight applications.

Sleeve Anchors - Yellow Passivated

Sleeve Anchors have a torque controlled sleeve for deep set expansion into concrete, solid brickwork or stone. Can be used to join two or more concrete structures, or to fasten an object such as a shelf to a brick wall. Also known as Two-Step Bolts or Anchor Bolts.
